

SIPHOSETHU THOBELANI DLAMINI

Soshanguve Block L, Soshanguve South, City of Tshwane, Gauteng.
0836135905 | siphosethuthobelani4@gmail.com

Professional Summary

- Motivated and hardworking Computer Systems Engineering student with strong technical, analytical, and problem-solving skills. Experienced in lab assistance, student mentoring, and academic support, with the ability to communicate effectively and work well in a team. Seeking a Work Integrated Learning (WIL) placement where I can apply my technical knowledge in a practical environment, develop professionally, and contribute to the success of the organization.

Experience

- **Directorate Student Development and Support** February 2025 - October 2025
Residence Mentor
 - Guided and supported students academically and personally.
 - Maintained reports, attendance, and support progress records.
 - Assisted first-year students with campus systems and academic planning
- **Department of Computer Systems Engineering** July 2025 - November 2025
Laboratory Tutor Assistant.
 - Assisted Students during lab practicals.
 - Helped with troubleshooting and system configuration.
 - Provided technical explanations and one-on-one academic support.
- **SASO** FEBRUARY 2025 - JUNE 2025
Volunteer Academic Tutor
 - Offered peer support in challenging subjects.
 - Helped students prepare for tests and assignments.
 - Promoted a positive and supportive academic learning environment.
- **SASO** 1 February 2026 - 30 June 2026
Academic Tutor
 - Supported students with academic work and exam preparation
 - Simplified difficult concepts for better understanding
 - Improved student performance through structured guidance

Education

- **Tshwane University Of Technology** Final Year(2026) - WIL placement required from completion.
Computer Systems Engineering
- **Mthingana Junior Secondary** 2022
Matric

Skills

- Programming: Linux, Arduino, Ladder Logic, C#, C++, C(Embedded Systems), Assembly(8051 microcontroller), Python(basic) .
- Microcontroller systems (8051) and simulation (Proteus, Keil).
- Programmable Logic Controller (PLC): Siemens, Allen Bradley and Mitsubishi.
- Web Development
- Electronics and Digital Electronics
- Mobile Robotics
- Artificial intelligence
- Programmable Device Controller

- Software engineering
- Embedded Systems
- Operating systems
- Logic Design
- Technical Support
- Microsoft Office suite.
- Analytical Thinking and problem-solving.
- Computer hardware troubleshooting.
- Communication and teamwork

Projects

- **Printed Copper Board(PCB)**
Designed and built a Printed Circuit Board (PCB) that toggles between ON and OFF states using a 555 Timer IC and Flip-Flops (FF). Performed circuit design, PCB assembly, soldering, testing, and troubleshooting while gaining practical experience in digital electronics and PCB development.
- **Smart House System**
Developed a Smart House System using ESP32, Wi-Fi, and relays. Built a secure web-based login system to remotely control lights and power sockets. Gained practical experience in IoT, embedded systems, web development, and system testing.
- **Smart Exam System**
Developed a web-based Smart Exam System using Python and Flask. Implemented secure user authentication for administrators and students. Integrated OpenCV for student face capture and facial recognition. Designed a database to manage student records, attendance, and examination data. Built a user-friendly interface for managing exams and student information.
- **student-friendly website**
Designed a student-friendly website that allows students to access and download study materials for their courses. Gained experience in web design, user interface (UI) design, and website development.

Achievements & Awards

- Top Academic Achiever Award (2024).
- Maintained Academic average above 65%.
- Recognized for exceptional leadership and student support.
